In the Matter of

Amendment of Section 73.202(b)

Table of Allotments

FM Broadcast Stations

St. Ignacious, MT

)

1999

MM Docket No. 99

To: John A. Karousos, Chief Allocations Branch

### PETITION FOR RULE MAKING

The Battani Corporation submits this Petition for the FCC's initiation of a Rule Making proceeding to amend Section 73.202(b) of the FCC's rules to allot FM channel **251C3** to **St. Ignatius, MT** as that community's "first local aural service."

St. Ignatius, which is located in Lake County, is a Census Designated Place (1990 Census) in scenic western Montana. Its population in 1990 was approximately 877 persons. St. Ignatius, an incorporated town, has a city council and a mayor. It boasts its own local police department, fire department, post office, and city hall. Like other "communities" to which the FCC has allotted a "first local aural service," St. Ignatius has local churches, library, commercial shops, medical service, real estate agents and its own school system.

Petitioner has determined that channel 251C3 can be allocated to St, Ignatius in full compliance with the FCC's FM spacing rules and allotment policies. See Attachment. From the fully-spaced reference coordinates (see Attachment), full city-grade (70 dBu) service can be provided to the entire community.

No. of Copies rec'd O+4
List A B C D E

MMB

A grant of the requested allotment would serve the public interest and meet the FCC's allotment priorities by providing a "first local aural service" to **St. Ignatius.** See Amendment of the Commission's Rules Regarding Modification of FM and TV Authorizations to Specify a New Community of License, 5 FCC Rcd 7094, 7096 (1990).

Upon the FCC's allotment of the channel as requested and following the opening of an appropriate filing window, Petitioner will submit an application for the channel and, if granted, will promptly build the new facility.

WHEREFORE, Petitioner urges that the FCC initiate a Rule
Making proceeding, receive comments and ultimately amend the FM
Table of Allotments as follows:

Community Present Allotments Proposed Allotments

St. Ignatius, MT -- 251C3

Respectfully submitted,

Robert Lewis Thompson

# ENGINEERING STATEMENT Proposed Allotment of Channel 251C3 to St. Ignatius, Montana

The information and data contained within this engineering statement were prepared on behalf of Batanni Corporation, in support of a petition for rule making. The petitioner proposes to amend the FM Table of Allotments, 47 C.F.R. § 73.202(b) of the Commission's Rules, by allotting Channel 251C3 to St. Ignatius, Montana.

Currently, St. Ignatius has no other aural broadcast services. At a point corresponding to the following geographic coordinates the Channel 251C3 allotment can be made at St. Ignatius in compliance with the minimum distance separation requirements 47 C.F.R. § 73.207.

North Latitude: 47 degrees, 36 minutes, 03 seconds West Longitude: 114 degrees, 05 minutes, 59 seconds

From these reference geographic coordinates, Channel 251C3 is fully-spaced to all FCC assignments, allotments and proposals contained within the latest *FCC FM Engineering Database*. All distances were computed by the methods outlined in § 73.208(c) of the Commission's Rules and were rounded to the nearest kilometer in accordance with § 73.208(c)(8).

The results of this study demonstrate that the FM Table of Allotments in § 73.202(b) of the Commission's Rules may be amended in technical compliance with all applicable spacing rules. Therefore, the Petitioner, Batanni Corporation, respectfully requests the following changes to the Table:
